

Cookson Dental by Cookson Industrial

# Your Trusted Partner in Dental Alloys.

At Cookson Industrial, we specialise in high-quality dental alloys designed for superior durability, reliability, and performance. Whether you need precious metal alloys or dental amalgam, our products are trusted by professionals worldwide.

## Trusted Dental Alloys

Our dental alloys are fully designed and produced in-house for superior performance in restorations, crowns, and bridges. Meeting the highest quality and safety standards, they provide peace of mind for dentists and patients alike.

We are MDR-certified, ensuring compliance with the latest European regulations and our commitment to safety, performance, and quality.

At Cookson Industrial, we proudly offer Aristaloy - a trusted name in dental amalgam and precious metal alloys. Known for reliability, consistency, and precision, Aristaloy meets the highest industry standards for dental restorations.
