

Bespoke Precious Metal Solutions for your Luxury.

At Cookson Industrial, we specialise in crafting bespoke precious metal solutions tailored for the luxury industry. Whether you are looking for personalised high-end jewellery, exclusive watch components, custom automotive accents, or unique interior design elements, we have the expertise and technology to bring you your ultimate luxuries.

Personalised Luxury Creations

Custom-made pieces in gold, silver, platinum, and other precious metals, designed to meet your unique specifications.

Advanced Manufacturing Techniques

From traditional craftsmanship to state-of-the-art 3D metal printing, precision machining, and hand-finishing.

Sustainable & Ethical Sourcing

We work with responsibly sourced metals and offer closed-loop recycling solutions.

End-to-End In-House Production

A full 360° cycle, from raw material to finished luxury product, all managed within our UK-based facility.

Why Choose Cookson Industrial?

Heritage & Expertise

Decades of experience in precious metal manufacturing.

Innovation

Leaders in additive manufacturing & custom metal solutions.

Bespoke Services

We work closely with designers and brands to create one-of-a-kind pieces.

Exclusivity & Precision

Creating bespoke, high-quality components for discerning luxury clients.
